

Samurai Brush Cutter | Walk Behind Brush...

Overview

A Brush-Slashing Walk Behind Brush Cutter

The SH72H Samurai Mower, a Walk Behind Brush Cutter by Orec, will slash all types of brush including tall grass, weeds and even small saplings. Used by professionals across many industries from landscaping and park maintenance to organic farming and vineyard management, the Samurai has become a staple among outdoor professionals from its one-of-a-kind, user-friendly design.

Tough, Versatile and Efficient – What More Could You Want From a Samurai Brush Mower?

The Hydro version of the Samurai Mower features a variable speed lever that makes it the easiest to use in the industry. The locking differential can get you through soggy and uneven ground, while our unique large front wheel design is durable and makes it easy to turn our Samurai through tight corners and around obstacles. You can adjust the cutting height from two to four inches simply by turning a crank and our ergonomic design allows you to control the Samurai with ease.
